RE: PHASING-OUT OF CUTLER HAMMER SERIES MOULDED CASE CIRCUIT BREAKERS:

Dear Valued Customer,

Please take note that Eaton South Africa will be embarking on a phase-out process for the following Moulded Case Circuit Breakers:

Series G - Globally Accepted Breakers:

Frames – EG, JG, LG, NG, RG
Motor Circuit Protectors (HMCPE)
All associated breaker accessories

Series C - North American Standards:

Frames – G, F, J, K, L, M, N, R
Motor Circuit Protectors (HMCP)
All associated breaker accessories

Phase-out will be implemented in the following time frames:

1. The ranges listed above will only be offered as replacement items and not for new projects until 31 December 2021.
2. As of 31 December 2021, offer on all product ranges (Series G and Series C) will be discontinued.
3. The Eaton NZM range will be offered as an alternative on all queries going forward.

The NZM family of Moulded Case Circuit Breakers are IEC approved circuit breakers offered in 4 compact frame sizes up to 1600A, Switching Capacities up to 150kA and Operational Voltages up to 690Vac with optional rated voltages up to 1000Vac. The range also offers an extensive set of accessories.

The range is competitively priced with selected items stocked locally and reduced lead times from Germany for non-stocked items.

For any queries as regards the above, please do not hesitate to contact your local sales representative for further assistance

Should you have any queries regarding this notification please contact your Eaton Sales Representative.

Yours Sincerely

Sizwe Nkosi,
PDC Product Management
