Sensor intelligence. Independence, Innovation, and Leadership.

From factory automation to logistics automation and process automation, SICK's sensor solutions are keeping industry moving. As a technology and market leader, SICK provides sensor intelligence and application solutions that create the perfect basis for controlling processes securely and efficiently, protecting individuals from accidents, and preventing damage to the environment. Whether automating factories or optimising distribution centres, or monitoring emissions from a stack, SICK provides cost-effective solutions. SICK has pioneered a long line of industry firsts – such as the first safety light curtain, the first colour sensor, and many more. These innovations provide solutions to virtually every industry application.
