MADE FOR REAL®

Notice of Price Increase

Dear Valued Client,

HellermannTyton will always be committed to providing high quality products and professional service.

Even though local inflation has started slowing in recent months, it was still persistently present throughout 2024. We also received price increases from our foreign suppliers, including freight costs increases due to global shipping route disruptions.

Due to the above, we will be increasing our prices by 4.7% on all products, effective 1 January 2025. This will ensure that we can continue focusing on the quality of our products by working with the best suppliers and materials.

We continue our focus to lower costs where possible to keep prices stable and increases to a minimum.

An updated price list will be available from our sales team effective 01 January 2025. Alternatively, you may refer to our on-line customer purchase platform <https://shop.hellermanntyton.co.za/> for pricing.

We appreciate your ongoing support and are happy to have you as a loyal customer. The staff at HellermannTyton wishes you a well-deserved break this holiday season and a truly prosperous 2025!

Yours faithfully,
Andrew Edwards
Head of Sales – Electrical Markets
